The achievement by bidders of the M/WBE participation goals and/or submission of documentation of efforts to obtain M/WBE participation will be a consideration in the award of a contract.

### I. DETERMINATION OF M/WBE PARTICIPATION

- A. The total dollar value of the contract or subcontract awarded or to be awarded to a certified M/WBE is counted toward achieving the goal. In order to qualify for consideration as a M/WBE firm, a firm must be certified by one of the following:

- SLDC - St. Louis Development Corporation
- MoDOT - Missouri Highway Department of Transportation
- IDOT - Illinois Department of Transportation
- Metro - Bi-State Development Agency

The Board of Education then will make its own determination which shall be final as to M/WBE certification of a firm.

- B. ***The portion of the total dollar value of a contract awarded to a joint Venture shall be equal to the percentage of the ownership of the M/WBE in the joint venture is counted toward the goal. However, this percentage will only apply for non-subcontracted work.***

***For a joint venture involving an M/WBE firm and a non-M/WBE general contractor, the general contractor may count towards the MBE/WBE goals only the M/WBE percentage of the non-subcontracted work to be directly self-performed by the joint venture.***

- C. Twenty percent (20%) of expenditures for materials and supplies obtained from an M/WBE supplier and one hundred percent (100%) of such expenditures from an M/WBE manufacturer or dealer certified as such by SLDC are counted toward the goal.

## II. BIDDING PROCEDURE

- A. Bidder shall submit the “Statement of M/WBE Participation” form included in this document as part of the Bid Proposal. If the Bidder is an M/WBE firm, Part I should be completed. This form cannot be changed after the bid opening without approval of the Board of Education. Any firm being considered for removal from this list must submit written confirmation to the Saint Louis Public Schools Purchasing Department requesting such removal. This statement, if accepted by the Board of Education, will become a part of the contract documents.
- B. All Bidders shall submit the “Statement of M/WBE Participation” form included in this document as part of the Bid Proposal. Failure to complete this form in its entirety will be cause for rejection of the bid. This form cannot be changed after the bid opening without approval from the Board of Education. Any firm being considered for removal from the list must submit written confirmation to the Saint Louis Public Schools Purchasing Department requesting such removal.

## III. EVALUATION PROCEDURES

- A. After the bid opening, the low bidder and the second bidder shall re- evaluate and confirm M/WBE firms to be used on the project. A confirmed “ Statement of M/WBE Participation” signed by an officer of the company shall be submitted to the Saint Louis Public Schools Purchasing Department, before 10:30 A.M. on the second (2<sup>nd</sup>), working day after the bid opening. This statement, if accepted by the Board of Education, will become part of the contract documents.
- B. If the utilization goals are not satisfactorily addressed, the efforts related to securing M/WBE participation will be evaluated by the Board of Education, taking into account, among other things, the following:
  - 1. Comparison with M/WBE participation in other bid proposals.
  - 2. Evaluation, including review of pertinent documents, of a bidder’s good faith effort of solicitation and follow-up to obtain M/WBE bids.
  - 3. When the MBE and WBE participation goals cannot be met the bidder shall document and submit justification as to why the goal(s) could not be met and demonstrate the good faith efforts taken to meet the MBE and WBE participation goals, including but not limited to the following recommended efforts:
    - i. Efforts made to break down contracts and portions of work into economically feasible units such that the MBE/WBE utilization goals can be met.
    - ii. Written notification to disadvantage economic development assistance agencies, organization, local, state and federal disadvantage business assistance offices, and other organizations which provides assistance in recruitment and placement of MBE/WBE’s on this project.

iii. Efforts made to negotiate with MBE's and WBE's for specific item(s) of Work including evidence on:

a. The names, addresses, telephone numbers of the MBE's and WBE's who were contacted, the dates of initial contact and whether solicitations of interest were followed up by contacting the MBE's and WBE's to determine with certainty whether the MBE or WBE is interested. Personal or phone contacts are expected; and

b. A description of the information provided the MBE/WBE's regarding the plans and specifications and the work to be performed; and

c. A statement of why additional agreements with other MBE/WBE's were not reached; and

d. Documentation of each MBE/WBE contacted but rejected and the reason for the rejection.

iv. Examples made to assist the MBE/WBE's that need assistance in obtaining bonding, insurance of lines of credit required by the contractor.

v. Documentation that qualified MBE/WBE's are not available or are not interested.

vi. Examples of actions not acceptable for failure to meet the MBE/WBE goals are:

a. MBE/WBE unable to provide performance and/or payment bond.

b. Union versus non-union status.

c. Contactor would normally perform all or most of the work of the contract, or restricts solicitation only to those general groups of items which may be listed in proposal under such heading as "Items Subcontractable to MBE/WBE Firms."

d. Solicitation by mail only.

vii. The demonstration of good faith efforts must, in the end, prove the contractor had actively and aggressively sought out MBE/WBE's to participate in the project. All the information provided must be accurate in every detail.

The ability to achieve the M/WBE goals and the good faith efforts demonstrated will be used to evaluate each Bidder's responsiveness.

The information provided will be evaluated to determine if the low bidder is responsive.

All information provided must be accurate in every detail. The apparent low bidder's attainment of the MBE/WBE goals or the demonstration of good faith efforts will determine the award of contract.

Documentation of initial good faith efforts is to be submitted before 10:00A.M. on the second (2<sup>nd</sup>) working day after the bid opening to the Board of Education utilizing the *Contractor's Good Faith Effort Statement, and Contractor's Good Faith Effort Report*.

#### IV. CONTRACTOR VERIFICATION OF M/WBE PARTICIPATION

- A. The Contractor will be required to submit the "Monthly M/WBE Report" describing amounts paid to M/WBE firms with each payment application.
- B. Prior to the release of the final one percent (1%) of contract retainage, the Contractor shall furnish a final Monthly M/WBE Report with supporting final lien waivers from all M/WBE firms used on the project. It is understood and agreed that in the event the total M/WBE participation on the project is less than that identified in the approved "Statement of M/WBE participation" provided by the Contractor prior to commencement of the project, the Board of Education will suffer a loss which will be difficult or impossible to determine. As a result, a liquidated damage amount equal to the difference between the dollar amount of the proposed and approved M/WBE participation, and the actual dollar amount of M/WBE participation, will be paid by the Contractor. Such amount shall be deduction from the final retainage owed to the Contractor, and will not exceed an amount equal to one percent (1%) of the original contract amount. No such deduction will be made when the proposed and approved M/WBE participation is not met for reasons beyond the control of the Contractor. Such determination is in the sole discretion of the Board of Education. The amount set forth above is agreed upon as liquidated damages, and not as a penalty.
- C. Compliance with the forty percent (40%) field employment goal will be monitored by the Saint Louis Public Schools Project Manager.

#### V. REPLACEMENT OF M/WBE FIRMS

- A. The Contactor shall make good faith efforts to replace an M/WBE subcontractor, who is unable to perform satisfactorily, with another M/WBE subcontractor. Replacement firms must be approved by the Board of Education.

## COUNTING M/WBE PARTICIPATION

The Saint Louis Public Schools (SLPS) district utilizes the following guidelines in determining the percentage of Minority/Women-Owned Business Enterprise (M/WBE) participation that will be counted toward the overall M/WBE goals for a prime contractor:

- A. If a firm is not currently certified as an M/WBE at the time of the execution of the contract, the firm's participation towards any M/WBE goal will not be counted.
- B. The dollar value of work performed under a contract with a firm after it has ceased to be certified will not be counted toward the overall goal.
- C. When an M/WBE participates in a contract, the value of the work actually performed will be counted as follows:
  - 1. The entire amount of that portion of a construction contract that is performed by the M/WBE's own forces. This includes the cost of supplies and materials obtained by the M/WBE for the work of the contract, including supplies purchased or equipment leased by the M/WBE (except supplies, and equipment the M/WBE subcontractor purchases or leases from the prime contractor or its affiliates).
  - 2. The entire amount of fees or commissions charged by an M/WBE firm for providing a bona fide service, such as professional, technical, consultant, or managerial services, or for providing bonds or insurance specifically required for the performance of the work, toward M/WBE goals, provided that SLPS determines the fee to be reasonable and not excessive as compared with fees customarily allowed for similar services.
  - 3. When an M/WBE subcontracts part of the work of its contract to another firm, the value of the subcontractor work may be counted toward M/WBE goals only if the M/WBE's subcontractor is itself an M/WBE firm. Work that an M/WBE subcontracts to a non-M/WBE firm will not count toward M/WBE goals.
- D. When an M/WBE performs as a participant in a joint venture, SLPS will count a portion of the total dollar value of the contract equal to the distinct, clearly defined portion of the work of the contract that the M/WBE performs with its own forces toward M/WBE goals.
- E. SLPS will count expenditures of an M/WBE contractor toward M/WBE goals only if the M/WBE is performing a commercially useful function on that contract:
  - 1. An M/WBE performs a commercially useful function when it is responsible for the execution of the work of the contract and is carrying out its responsibilities by actually performing, managing, and supervising the work involved. To perform a commercially useful function, the M/WBE must also be responsible with respect to materials and supplies used on the contract, for negotiating price, determining quality and quantity, ordering the material, installing (where applicable) and paying for the material itself. To determine whether an M/WBE is performing a commercially useful function, SLPS will evaluate the amount of work subcontracted, industry practices, whether the amount the firm is to be paid under the contract is commensurate with the work it is actually performing and the M/WBE credit claimed for its performance of the work, and other relevant factors.

2. An M/WBE does not perform a commercially useful function if its role is limited to that of an extra participant in a transaction, contract, or project through which the funds are passed in order to obtain the appearance of M/WBE participation. In determining whether an M/WBE is such an extra participant, SLPS will examine similar transactions, particularly those in which M/WBEs do not participate.
3. If an M/WBE does not perform or exercise responsibility for at least 30 percent of the total cost of its contract with its own work force, or the M/WBE subcontracts a greater portion of the work of a contract than would be expected on the basis of normal industry practice for the type of work involved, SLPS will presume that it is not performing a commercially useful function.
4. When an M/WBE is presumed not be performing a commercially useful function as provided in this program, the M/WBE may present evidence to rebut this presumption. SLPS may determine that the firm is performing a commercially useful function given the type of work involved and normal industry practices.

F. SLPS will count expenditures with M/WBEs for material or supplies towards M/WBE goals as provided in the following:

1. SLPS will count 100% of the cost of the materials or supplies toward M/WBE goals if the materials or supplies are obtained from an M/WBE manufacturer. For purposes of this paragraph, a manufacturer is a firm that operates or maintains a factory or establishment that produces, on the premises, the material, supplies, articles, or equipment required under the contract and of the general character described in the specifications.
2. SLPS will count 20% of the cost of the materials or supplies towards M/WBE goals if the materials or supplies are purchased from an M/WBE regular dealer. For purposes of this section a regular dealer is a firm that owns, operates, or maintains a store, warehouse, or other establishment in which the materials, supplies, articles, or equipment of the general character described by the specifications and required under the contract are brought, kept in stock, and regularly sold to or leased to the public in the usual course of business.

To be a regular dealer, the firm must be an established, regular business that engages, as its principal business and under its own name, in the purchase and sale or lease of the products in question.

A person may be a regular dealer in such bulk items as petroleum products, steel, cement, gravel, stone or asphalt without owning, operating, or maintaining a place of business if the person both owns and operates distribution equipment for the products. Any supplementing of regular dealers' own distribution equipment shall be by a long-term lease and not on an ad hoc or contract-by-contract basis.

Packagers, brokers, manufactures' representatives, or other persons who arrange or expedite transactions will not be considered regular dealers.

3. With respect to materials or supplies purchased from an M/W/DBE which is neither a manufacturer nor a regular dealer, SLPS will count the entire amount of fees or commissions

charged for assistance in the procurement of the materials and supplies, or fees or transportation charges for delivery of materials or supplies required on a job site, toward M/W/DBE goals, provided that SLPS has determined the fees to be reasonable and not excessive as compared with fees customarily allowed for similar services. SLPS will not count any portion of the cost of the materials and supplies themselves toward M/WBE goals, however.

Note: All M/W/DBE firms must, as of the date bids are due, be certified as an MBE, WBE or DBE by at least one of the following certifying agencies:

MoDOT (Missouri Department of Transportation)  
IDOT (Illinois Department of Transportation)  
City of St. Louis/ St. Louis Lambert International Airport  
BiState Transit Authority dba Metro.

A copy of the firm's certifying letter must accompany the bid. If a company's certification lapses before the closing out of the project, the firm must be recertified before the close of the project for its participant to be counted.

**Prevailing Wage Requirements and Wage Order**

**PREVAILING WAGE LAW:**

All bidders submitting a proposal for this project must comply with the Department of Labor and Industrial Relations of the State of Missouri, pursuant to Section 290.210 to 340 V.A.M.S., which states that prevailing rates of wages shall be paid to all workers (as defined by Annual Wage

Order #18 and associated Incremental Wage Increases).

In all required bonds, the Contractor shall include such provisions as will guarantee the faithful performance of the prevailing hourly wage clause as provided by contract.

Contractor and their subcontractors shall be required to submit weekly payroll sheets with their monthly invoices, showing compliance to the above Prevailing Wage Standard, as well as an Affidavit of Compliance with Prevailing Wage Law at the conclusion of the project, prior to final payment.

Accurate records pertaining to wages paid all workers employed on the contract shall be kept within the state by the contractor and each subcontractor, for a period of one (1) year following the issuance of final payment for the subject work.

The contractor will forfeit a penalty to the St. Louis Public Schools of \$100 per day (or portion of a day) for each worker that is paid less than the prevailing wage rate for any work done under the contract by the contractor or by any subcontractor.

The contractor and all subcontractors to the contract must require all on-site employees to complete the ten-hour safety training program required under Section 292.675, RSMo, (enclosed in the laws section), if they have not previously completed the program and have documentation of having done so.

The contractor will forfeit a penalty to the St. Louis Public Schools of \$2,500 plus an additional \$100 for each employee employed by the contractor or subcontractor, for each calendar day, or portion thereof, if such employee is employed without the required training.

During periods of excessive employment (any month immediate following two consecutive calendar months during which the level of unemployment in the state has exceeded five percent as measured by the United States Bureau of Labor Statistics) only Missouri laborers (persons who have resided in Missouri for at least thirty days and intend to become or remain Missouri residents) and laborers from non-restrictive states (persons who are residences of a state which has not enacted state laws restricting Missouri laborers from working on public works projects in that state, as determined by the Labor and Industrial Relations Commission) (see Excessive Unemployment section), may be employed under the contract, except that other laborers may be used when Missouri laborers or laborers from nonrestrictive states are not available, if so certified by the contractor and approved by the contracting officer.

Every transit employer, as defined in section 285.230 RSMo, enclosed in the laws section, must post in a prominent and easily accessible place at the work site a clearly legible copy of the following: (1) The notice of registration for employer withholding issued to such transient employer by the director of revenue; (2) Proof of coverage for workers' compensation insurance or self-insurance signed by the transient employer and verified by the department of revenue through the records of the division of workers' compensation; and (3) The notice of registration for unemployment insurance issued to such transient employer by the division of employment security. Any transient employer failing to comply with these requirements shall, under section 285.234, RSMo, enclosed in the laws section, be liable for a penalty of five hundred dollars per day until the notices required by this section are posted as required by that statute.

St. Louis Public Schools seeks to ensure that the highest quality workmanship will be performed on the project and requires the Contractor to use a qualified Project Superintendent at all times that work is being performed on the job site.

Wage order 19 is provided. If a more recent version exists, it is the design builders responsibility to be in compliance.
