DISTRICT OF THE CITY OF ST. LOUIS

Purchasing Department
801 North 11th Street
Saint Louis, Missouri 63101

RFP 037-1617 District-Wide Boiler Repair

1. Will this RFP include boiler and cooling tower chemical treatment or is it simply an actual boiler repair RFP more geared for maintenance and equipment? **The RFP will not include chemical treatment it is for performing repairs and preventative maintenance to the equipment (mostly repairs).**
2. Please provide a summary of the scope for this RFP. **This RFP has a broad scope because the District has multiple types of boilers and they require a company that can work on all of the different types of components on each type of boiler.**
