

Biometric Screening, Simplified!

Choose one of several ways to complete a biometric screening.

UHC Rewards has partnered with LetsGetChecked for a **new and improved biometric screening experience**.

A biometric screening can help identify risk factors associated with chronic health conditions like heart disease and diabetes. Know your numbers. Take control of your health.

You'll get accurate physician-reviewed results within days. It's never been easier!

Biometric screening — your way!

Choose the option that works best for you.

-  At-home
-  At a nearby lab
-  With your physician

Schedule now!

- Sign in on the **UnitedHealthcare® app**
- Go to the **Menu** tab and select **UHC Rewards**
- Scroll to **Available activities** and select **See all**
- Select **Biometric screening** and then **Get started**
- You'll arrive at the vendor's site, where you can follow the prompts to finish your registration and choose how you want to complete your screening
