

# VIRTUAL LEARNING NETIQUETTE AND NORMS

1

## Be Respectful

Just like in the classroom, it is always important to treat everyone the way that you would like to be treated. This is a scary and difficult time for everyone, let's help raise each other up and have fun while we are online together.

2

## MICS Off, Video On

To use our time together as best as we can, always enter a "Meet" with your microphone off and your video on. Seeing your faces is the best way to be connected! When it is your turn to speak or share, simply unmute and let your voice be heard!

3

## Always Assume Good Intent

When we are in the classroom and learning in person, it is easy to see someone smile, hear someone laugh, and understand how they are feeling. Sometimes when online, typing our words does not show exactly how we are feeling or what we mean. While in our virtual classroom, always assume that others are typing their words with good intentions. Mean what you say, but don't be mean when you say it. (HINT: if we're already following rule one this is a piece of cake!)

4

## Ask Questions

Things are new and confusing for all of us! If there is something you do not understand or would like to ask, you can always ask a question in the chat! During video instruction, post a question in chat or raise your hand and unmute when given permission by your teacher.

5

## Have Fun!

Things may look a little different this year but they can still be fun! It's okay to laugh and have fun with your teacher and peers, as long as it doesn't get in the way of your learning!
