

Culture & Climate Partnership Mission: In alignment with the St. Louis Public School's and the Culture and Climate Committee's mission, EdPlus and The University of Missouri MU Center for School-wide PBS, will effectively collaborate with schools and leaders to inform and create a more positive school and classroom culture and climate by developing a common language with best practices and interventions, and common data that impacts and develops a system of excellent schools within SLPS. Ultimately, the goal is to increase internal expertise.

School Partnership Support Tiers

Schools that are interested in partnering to receive Culture & Climate Support can select a package listed below based on the level of support desired. All levels of support are provided by the district at no additional cost to each school.
