MANN ELEMENTARY SCHOOL - JANUARY 2020

PRINCIPAL'S CORNER

Dear Mann Family,

Welcome back and Happy New Year! I hope everyone enjoyed a wonderful winter break and had time to relax and participate in some memorable activities with family and friends.

Students will be bringing their report cards home on Friday. Please be sure to review your child's report card and have a conversation with your child about his/her academic progress to date. As we proceed into the third grading period, know that the school curriculum pace increases and the most complex information is being taught by the Mann teaching staff. Thus, it is critical that our students are consistently here at school ready to learn and that they are consistently doing their homework! Together, home and school can make an effective team working toward the academic success of our children.

As always, please don't hesitate to contact me if you have any questions, concerns, or suggestions. You can reach me at 314-772-4545 or you can email me at angela.glass@slps.org.

ACTIVITY CORNER **A dancing snake**

Air currents make a paper "snake" wiggle and dance with this simple science experiment.

Materials: crayons, paper plate, scissors, yarn, lamp

Have your youngster use a crayon to draw a spiral on the paper plate. She can decorate the snake with patterns, then cut it out. Poke a small hole in the snake's head, and tie on a piece of yarn.

Turn on the lamp, and let your child hold her snake by the yarn at least 1 foot above (not touching) the warm light-bulb. Her snake will dance and spin.

What's going on? As warm air created by the lamp rises, cooler air moves in to replace it. This constant motion creates air currents that move the snake around. ♥

SHORT NOTES

Snow day plan

Make sure you have a plan in place for weather-related school closings and delays. You might ask a coworker to swap shifts or see if you could telework when school is canceled. If you can't get home in time for an early closing, find a relative or neighbor to pick up your child from school or meet him at the bus stop.

What's that sound?

Play this game to sharpen your youngster's listening skills. Have her close her eyes while you make a noise. Can she identify the jingle of the dog's leash or the "pop" of the toaster? Trade roles, and let her create a sound for you to figure out.

JUST FOR FUN

Q: Why do you do homework with a pencil?

A: Because a pencil can't do homework all by itself.

HOLIDAYS AROUND THE WORLD

Celebrating our Diversity!

On December 19th, Mann Elementary celebrated our annual Holidays Around the World. Since we are A Leader in Me school, students traveled with their Leader in Me families to visit various countries. The countries visited by our students were: France, Mexico, Spain, Canada, Bulgaria, Greece, China, Costa Rica, South Africa, The Netherlands, New Zealand, Australia, Russia, Brazil, and Nepal. Our travelers visited four different countries. They learned about each country, completed an activity, and tasted a treat from that country at each stop. Many students wore their native clothing from their countries. Their outfits were absolutely stunning! As a special treat, some of our fourth and fifth grade students worked with Mr. Mitchell and helped present for the country of Nepal.

They even presented a beautiful dance from Nepal! Before the students left each country, they had their passports stamped before flying to the next country. Our fourth and fifth grade family members served as the pilots to escort our passengers to the next stop. They used boarding passes to make sure they arrived at the correct location each flight. We are very grateful for our parents who volunteered to assist with presentations and those who joined us for this event.
