

# MEET MS. STEWART

Hello and welcome to my webpage!

This will be a space for important information and communications for our learning community.

## ABOUT ME

I am a born and raised St. Louisan, and am thrilled to be working in our public schools.

I graduated the University of Missouri Columbia (go tigers!) with a degree in Secondary English Education which I am putting to use in my second year at McKinley.

## MY PHILOSOPHY

My goal as an educator is to produce students who are empowered in their education, active community members, and effective communicators. My students should feel challenged but supported as we navigate the roles of reader and writer to engage with issues and experiences in our lives, our society, and our world.

## COURSES

I teach AP Lit, AP Lang, American Literature, and Senior English.

I am very fortunate to get to have every upperclassman in my classes.
