[Click here](#) to visit the M&M's factory! Learn about the steps involved in making M&Ms, the number of M&Ms produced daily, and when the plant was first established. What was your favorite part of the virtual tour?

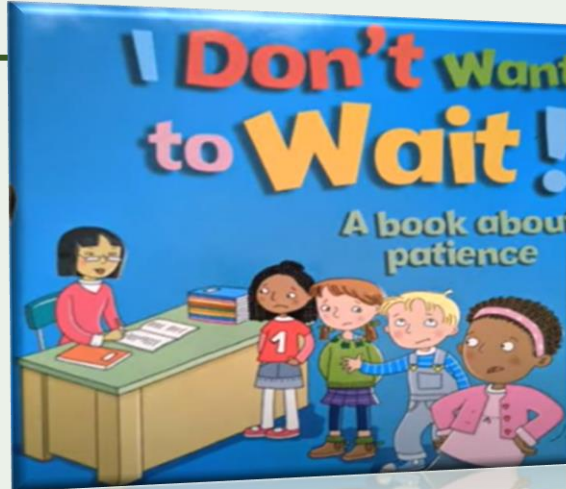

Approximately 1 million M&Ms are made every day! M&Ms have been produced in New Jersey since 1941. "My favorite part was watching the M&Ms being sprayed with colorful candy coating."

[Click here](#) to listen to "I Don't Want to Wait!", a book about patience. Maisy hates waiting for anything! Can her big sister, Lola, teach her ways to be more patient? Pay attention to what Lola says to Maisy.

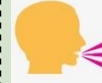

Maisy is very impatient and dislikes waiting for her turn to share. During creative time, she doesn't wait for the paint to dry, and when playing with her friend, she struggles to wait for her turn. Lola advises Maisy to take deep breaths to help her calm down and think about other things. Maisy follows Lola's advice and learns to be patient.

[Click here](#) to help Arthur complete his classroom jobs. As Mr. Ratburn says, "It's important to take on more responsibility as you grow." Share with a family member how you assisted Arthur in completing his classroom jobs, and then talk about the classroom jobs you've had in the past.

"I helped Arthur collect party invitations, sharpen pencils, and feed the class pet. In my own classroom, I am the door holder, responsible for holding the door open for all of my friends."
