[Click here](#) to watch children present their favorite toys during Show and Tell. Do you have a favorite toy? Choose your favorite toy and tell a family member why it's your favorite. Remember to give as many reasons as possible.

[Click here](#) to learn about recycling. Share the importance of recycling with a friend or family member, and explain how and what can be recycled.

 In the story, the character wishes to replace someone with a dragon. Morton, the protagonist, wants to replace his little brother because he wants him to be more fun. Morton wishes his brother could transform into a dragon so they could enjoy activities like going for walks, playing basketball, playing hide-and-seek, and whistling together.

 Why did the author choose the title "I Am Perfectly Designed"? The author wants children to celebrate self-love and acceptance, encouraging them to embrace who they are. He aims to promote kindness and inclusivity among children.

Kids Show and Tell: Favorite Toy | Show and Tell | HiHo Kids

 My favorite toy is my bear, which was given to me by my favorite aunt for my second birthday. I cherish this toy because it reminds me of her. I enjoy hugging my bear at night and dressing it in various outfits, such as shorts, t-shirts, and shiny shoes, occasionally adding a bow to its head. This bear holds a special place in my heart.

 Recycling is crucial for several reasons. One significant benefit is that it contributes to cleaner air by reducing pollution caused by waste. To do my part, I practice recycling by disposing of paper in the designated recycling bin.
