

WHO WE ARE

College Bound is a 7-9 year college preparation and success program. We are committed to staying with our students from the beginning of their sophomore year of high school until you have a college diploma in hand and are on your way to finding a career of purpose.

To maximize our experience together, we focus on four essential questions that will shape your future:

What is the **best approach** for learning and growth?

What can I **discover** about my interests and purpose?

What do I **need** from myself and others to be successful?

What **path** do I take when faced with a decision?
