

Dear Families,

Hello, my name is Chandra Hawkins and I have been teaching since 2012. I am currently pursuing my graduate degree in Elementary Administration and will graduate in December of this year. I will be your Sparkling Scholar's new kindergarten teacher for the remainder of this school year. It has been a dream of mine to not only teach in the St. Louis Public School System but also teach kindergarten! I am so excited and blessed for this opportunity to partner with you and help make this transition and end of the year amazing. I am a teacher who believes in the power of partnership, relationships, and a scholar's ability to advocate for what they need in life and in the classroom. I work very hard at ensuring success for all my students and I set high expectations.

I am a single mom of three teen boys (I know all the tricks). I have two pets, both spoiled rotten, a dog (Barry Allen) and a cat (Yogi Berra). For fun, I play video games with my boys, read, write, play outside, laugh, shop, and watch movies. I love a good cup of coffee and my favorite gift to receive is letters from parents and students. I can't wait to teach your scholar and help to transform and inspire them to be confident, capable, and curious learners.

Partners Together,

Ms. Hawkins
