

# Yeatman-Liddell Middle School Newsletter

**Our  
Renaissance  
2019-2020**

**Tiger  
Nation  
UPDATES!**

As we begin a new chapter at Yeatman-Liddell, we are committed to high expectations and opportunities for academic and personal growth. From 6th - 8th grade, our curriculum will be challenging, integrated, inquiry and project-based and our students will embark on a rigorous and relevant learning journey to know themselves and discover what opportunities lie ahead in this global economy. Our high school/college prep program promotes mastery of content as well as the skills and attitudes that are increasingly necessary to live and thrive in the 21st century: social skills, personal responsibility, critical thinking, creative problem solving, flexibility, technology proficient, and communication.

### **Yeatman Mission:**

To provide an educational experience that empowers students through rigorous instruction, quality support services, and partnerships.

### **Yeatman Vision:**

Yeatman-Liddell will be the preferred middle school in St. Louis city fostering excellence in academic achievement, leadership, and character in order for students to successfully complete post-secondary endeavors.

We believe strongly in our **Tiger Core Values:**

- A strong academic foundation is required
- Respect for *All* is a must
- Integrity and character matter
- We possess self-discipline and grit
- We are open-minded to stretching ourselves
- We are leaders, now and in the future

Be Better Today...

Than Yesterday!

April/May 2019

Yeatman-Liddell Middle School's 2nd Annual "Bunny Land" extravaganza, was free to the public and was sponsored by our community partner CareSTL Health & Yeatman-Liddell Middle School

Thanks to the St. Louis Fire Department for participating!

### Veggies for better health!

Mr. Mike Harris of the Clarence Clover Community Garden

### Health and Wellness Gardening Project

Members of the Clarence Clover Community Garden have been working with Yeatman-Liddell teacher, Mr. McCarter and his students learning how to plant, grow, and harvest vegetables that they grew at school. They recently had feast at school and had the opportunity to eat the vegetables that they grew. Way to go!

## Future Engineers?

Sixth grade students in Ms. Berg's science class, construct their own structure using toothpicks and marshmallows in a timed exercise. The fun began when a weight was added to see whose structure held up under pressure. *That's real heavy man!*

# Yeatman Hosts its 12th Annual Career Fair!

Students were engaged in our 12th Annual Career Fair Wednesday, May 8, 2019. This experience provided students with the opportunity to speak with 25 career representatives that were on campus. This experience provoked thinking about career choices and pathways. Present were companies and organizations such as, SSH Health, IHeart Media, Americorps, National Geospatial-Intelligence Agency, The National Council on Alcohol and Drug Abuse, St. Louis Metropolitan Police Department, Safe Connections, Girl Scouts, St. Louis Fire Department, Vantage Credit Union, Barnes Jewish Hospital, and Barbizon Modeling Agency. Many students commented that they enjoyed this experience. Special thanks to Yeatman Counselor, Ms. Lander who organized this event and commented she was pleased to hear compliments from the presenters on the positive behavior, career interests and great interviewing skills of our students.
