SIOP Language Objectives

Language Objectives:

- Promote student academic language growth.
- Include the use of either receptive (listening and reading) and/or productive language skills (speaking and writing)
- Connect clearly with the lesson topic or lesson activities

Essential Question: Which of the four domains will the students use to accomplish the content objective?

Category	Example	
Key vocabulary refers to the technical terms, concept words, and other words needed to discuss, read, or write about the topic of a lesson	Students will be able to define the terms orally and in writing	
Language Functions refer to the ways students use language in the lesson.	Students will be able to formulate questions and generate hypotheses	
Language Skills are the reading, writing, listening, and speaking skills students need to learn.	Students will read and determine a main idea. Students will write an explanation	
Grammar or Language Structures can be taught when they are prevalent in the written or spoken discourse of the class.	Students will use adverbs when drafting their report. Students will recognize imperative sentences	
Lesson Tasks involve identifying language that is embedded in a single lesson and turning it into explicit instruction in language.	Students will be able to read and summarize a text passage with peers and then teach the main information to another student.	
Language Learning Strategies may include corrective strategies (reread confusing text), self-monitoring strategies (make and confirm predictions), pre-reading strategies (relate to personal experience), or language practice strategies (repeat or rehearse phrases, visualize).	Students will be able to confirm their responses to text questions with a peer. Students will be able to represent data graphically.	

Action Words

Listening	Speaking	Reading	Writing
act	agree/disagree	discover	ask and answer
arrange	answer	distinguish	questions
distinguish	ask	explore	brainstorm
duplicate	converse	find	classify
categorize	debate	find specific info	collect
choose	define	identify	compare
copy	describe	infer	contrast
follow directions	discuss	interpret	create
identify	explain	locate	describe
indicate	express	make connections	edit
label	give instructions	match	evaluate
listen	identify	preview	explain
match	name	predict	illustrate
order	practice	read	journal
point	predict	read aloud	label
recognize	pronounce	skim	list
role play	rehearse		order
show	repeat		organize
sort	rephrase		record
tell	respond		revise
	restate		state and justify
	say steps in a		opinions
	process		summarize
	share		support
	state		take notes
	summarize		write
	tell		
	use vocabulary
