

APPENDIX B

Building Leveled Academic Language Objectives (ALOs) The School-Wide English Learning (SWEL) Model

Academic language objectives (ALOs) are used to guide the language instruction required for students to master the content objective and, ultimately, the standard that guides the lesson or unit plan. *An ALO does not need to be written for each of the three levels in a single lesson.* Rather, use the following steps to figure out what language your students will need to learn and/or to demonstrate their mastery of the lesson through reading, speaking, writing, and/or listening activities. The academic language video lecture that accompanies this document can be found on the companion website for *Teacher Leadership for School-Wide English Learning*.

Before writing an ALO, it's important that you think through the following: What language do you notice in your lesson materials and what language do your students need to be taught?

A. Identify your content objective(s) :
B. Language function(s) : What are you asking students to do with language? (e.g., analyze, compare/contrast, explain, interpret, argue, persuade, categorize, describe, predict, question, retell, summarize, justify with evidence; see Academic Language Objective chart)
C. Content vocabulary : What key vocabulary (word level—"the bricks") do you need to introduce/review with students? How will you engage students with that vocabulary in the lesson? How is this vocabulary being introduced, developed, or reviewed in this lesson?
D. Syntax : What syntax (sentence level—"the mortar") is present in the materials that you are going to teach?
E. Discourse : What text type or genre (discourse level—"the building") will students need to produce?

Academic Language Objective Levels: Choose one of the three sentence frames to write your academic language objective.

Word Level

I can _____ [function] using _____ [vocabulary, or phonological/morphological topic], such as _____ [examples of language], with the support of _____ [support(s)].

Word level phonological (sounds) and morphological (parts of words) examples:
fi teen vs. fi ty (stress), affixes and word roots

Sentence/Syntax Level

I can _____ [function] using _____ [language structure/syntax], such as _____ [examples of language structure], with the support of _____ [support(s)].

Sentence level examples: ordinal numbers, adjectives, past tense *-ed*, connecting words, language of comparison

Discourse Level

I can _____ [function] in _____ [language genres], with the support of _____ [support(s)].

Discourse level examples of genres: science lab report, fi e-paragraph essay, iambic pentameter poetry, business letter, mathematical proof, formal debate, persuasive essay structure.

The following Academic Language Objectives chart shows each of the academic language functions, along with examples of language, supports, and sample ALOs at each of the three levels of academic language. Academic language function words in bold are used by the edTPA teacher assessment system (www.edtpa.com).

Academic Language Function	Examples of Language	Examples of Supports	Academic Language Objective Examples
<p>Classify</p> <p>Related functions: arrange, organize, categorize, construct, create, generate, summarize, arrange, group</p>	<p><i>Word level:</i></p> <p>Content vocabulary (“bricks,” or words in bold)</p>	<p>Tree Map</p> <p>Hierarchical Organizer</p> <p>Pictograph</p> <p>Word bank</p>	<p><i>Elementary/Secondary Math [word level]</i></p> <p>I can <u>classify</u> different types of shapes using <u>content vocabulary</u>, such as <u>circle, square, rectangle, and oval</u>, with the support of a <u>word bank</u> and <u>pictures</u>.</p>
	<p><i>Sentence/syntax level:</i></p> <p>Descriptors</p> <p>Adjectives</p>		<p><i>Elementary/Secondary Math [sentence level]</i></p> <p>I can <u>classify</u> different types of shapes using <u>descriptive adjectives</u>, such as <u>three-sided, symmetrical, equal, and parallel</u>, with the support of a <u>categorizing graphic organizer</u>.</p>
	<p><i>Discourse level:</i></p> <p>Three-sentence paragraph, Math talks</p>		<p><i>Elementary/Secondary Math [discourse level]</i></p> <p>I can <u>classify</u> different types of shapes in math talks with the support of <u>manipulatives</u> and <u>first language knowledge</u>.</p>
<p>Compare/Contrast</p> <p>Related functions: Describe (similarities and differences), distinguish, identify, recognize, separate, differentiate</p>	<p><i>Word level:</i></p> <p>Content vocabulary (“bricks,” or words in bold)</p>	<p>Double Bubble Map</p> <p>Bridge Map</p> <p>Venn Diagram</p> <p>Semantic Structures Analysis</p> <p>T-Chart</p> <p>Fact-Opinion Charts</p>	<p><i>Secondary Social Studies [word level]</i></p> <p>I can <u>compare</u> the experiences of immigrants and refugees using <u>past tense verbs with the -ed ending</u>, such as <u>lived, traveled, and walked</u>, with the support of a <u>regular past tense verb list</u> and a <u>T-Chart</u>.</p>
	<p><i>Sentence/syntax level:</i></p> <p>However, but, as well as, on the other hand, not only . . . but also, either . . . or, while, although, unless, similarly, yet, compared to, similar to, different from, and yet, as opposed to, alternatively, apart from, by contrast, contrary to that, conversely, in spite of this, nevertheless, nonetheless, notwithstanding, regardless, some . . . , but others, still, then again, by the same token, correspondingly, likewise, too</p>		<p><i>Secondary Social Studies [sentence level]</i></p> <p>I can <u>compare</u> the experiences of immigrants and refugees using the <u>language of comparison</u>, such as <u>different from, similar to, and similarly</u>, with the support of a <u>Venn Diagram</u> and a <u>T-Chart</u>.</p>
	<p><i>Discourse level:</i></p> <p>Reports, explanations (essays), academic discussions</p>		<p><i>Secondary Social Studies [discourse level]</i></p> <p>I can <u>compare</u> the experiences of immigrants and refugees in a <u>report on the Somali diaspora</u> with the support of a <u>Venn Diagram</u>, an <u>essay outline</u>, and a <u>T-Chart</u>.</p>

Academic Language Function	Examples of Language	Examples of Supports	Academic Language Objective Examples
<p>Order</p> <p>Related functions: Categorize, organize, develop, discover, complete, process, outline, retell, order</p>	<p><i>Word level:</i></p> <p>Content vocabulary (“bricks,” or words in bold)</p>	<p>Flow Map</p> <p>Cycle Graph</p> <p>Flow Chart</p> <p>Timeline</p> <p>Outlines</p>	<p><i>Elementary Science [word level]</i></p> <p>I can <u>order</u> the steps of the butterfly lifecycle using the numbering suffixes <u>–st</u> and <u>–th</u>, such as <u>fir/st</u> , <u>four/th/</u>, <u>fif</u> <u>th/</u>, and <u>six/th/</u>, with the support of a timeline and a number line.</p>
	<p><i>Sentence/syntax level:</i></p> <p>First, second, third . . . ; next; before; after; afterwards; later on; time; not long after; now; as; when; immediately; preceding; initially; meanwhile; following; until; soon; today; as</p>		<p><i>Elementary Science [sentence level]</i></p> <p>I can <u>order</u> the steps of the butterfly lifecycle using <u>sequencing words</u>, such as <u>initially</u>, <u>later on</u>, <u>following</u>, and <u>final</u> , with the support of an outline.</p>
	<p><i>Discourse level:</i></p> <p>Procedural paragraph or essay, written or oral directions, explanations, recipes</p>		<p><i>Elementary Science [discourse level]</i></p> <p>I can <u>order</u> the steps of the butterfly life cycle in a <u>procedural three-paragraph essay</u> with the support of a <u>graphic organizer</u>.</p>
<p>Infer</p> <p>Related functions: Predict, extrapolate, restate, represent, summarize, reconstruct, synthesize, derive, deduce, explain, create, construct</p>	<p><i>Word level:</i></p> <p>Content vocabulary (“bricks,” or words in bold)</p>	<p>Multifl w Map</p> <p>T-Chart</p>	<p><i>Elementary/Secondary Social Studies [word level]</i></p> <p>I can <u>infer</u> from the evidence presented in multiple texts using <u>academic vocabulary</u>, such as <u>conclusion</u>, <u>synthesis</u>, <u>analysis</u>, and <u>interpretation</u>, with the support of a <u>word bank</u> and an <u>anchor chart</u>.</p>
	<p><i>Sentence/syntax level:</i></p> <p>Future tense (use of will), if . . . not, if . . . then (conditional connectors), descriptive verbs adjectives</p>		<p><i>Elementary/Secondary Social Studies [sentence level]</i></p> <p>I can <u>infer</u> from the evidence presented in multiple texts using <u>connectives</u>, such as <u>is caused by</u>, <u>so that</u>, and <u>additionally</u>, with the support of the <u>connective anchor chart</u> and a <u>bubble map</u>.</p>
	<p><i>Discourse level:</i></p> <p>Explanations (written and oral), persuasive arguments (written and oral), advocacy letter, speech or debate</p>		<p><i>Elementary/Secondary Social Studies [discourse level]</i></p> <p>I can <u>infer</u> from the evidence presented in multiple texts in a <u>formal academic debate structure</u> with the support of <u>note cards</u> and a <u>debate partner</u>.</p>

Academic Language Function	Examples of Language	Examples of Supports	Academic Language Objective Examples
<p>Locate</p> <p>Related functions: Define, seek information, count, identify, indicate, match, name, point, recall, recite, reproduce, repeat, state, select, record</p>	<p><i>Word level:</i></p> <p>Content vocabulary (“bricks,” or words in bold)</p>	<p>Circle Map</p> <p>Attribute Diagram</p> <p>Web</p> <p>SQ3R</p> <p>Concept Definition</p> <p>Map</p> <p>Outlines</p>	<p><i>Secondary English Language Arts [word level]</i></p> <p>I can <u>locate</u> supporting details in <i>The House on Mango Street</i> using the <u>correct final sound</u> in words, such as <u>cracked, needed, decided, worked, and closed</u>, with the support of <u>word charts</u> and <u>sound symbol notations</u>.</p>
	<p><i>Sentence/syntax level:</i></p> <p>To be, action verbs, prepositions</p>	<p>Cornell Note-Taking</p>	<p><i>Secondary English Language Arts [sentence level]</i></p> <p>I can <u>locate</u> supporting details in <i>The House on Mango Street</i> using <u>dialogue verbs</u>, such as <u>said, replied, and remarked</u>, with the support of <u>Post-it notes</u> and <u>Cornell Notes</u>.</p>
	<p><i>Discourse level:</i></p> <p>Informational articles, scientific reports, newspaper articles, textbooks</p>		<p><i>Secondary English Language Arts [discourse level]</i></p> <p>I can <u>locate</u> supporting details in <i>The House on Mango Street</i> with my understanding of the <u>narrative structure</u> with the support of <u>Post-it notes</u> and an <u>outline</u>.</p>
<p>Describe</p> <p>Related functions: Inform, explain, identify, report, retell, recount, reorder, represent, depict, paraphrase, summarize, conclude, convert, prepare, transform, translate, prepare, generalize, extrapolate</p>	<p><i>Word level:</i></p> <p>Content vocabulary (“bricks,” or words in bold)</p>	<p>Circle Map</p> <p>Bubble Map</p> <p>Web</p> <p>SQ3R</p> <p>Concept Definition</p>	<p><i>Secondary Science [word level]</i></p> <p>I can <u>describe</u> density using <u>suffixes that change adjectives into nouns</u>, such as <u>-ity (density, applicability)</u> and <u>-ness (thickness)</u>, with the support of my <u>lab partner</u> and an <u>anchor chart</u>.</p>
	<p><i>Sentence/syntax level:</i></p> <p>Adjective use; descriptive language; superlatives/comparatives; <u> </u> said; the book says; first, second, next, . . . ; according to</p>	<p>Map</p> <p>Outlines</p> <p>Cornell Note-Taking</p>	<p><i>Secondary Science [sentence level]</i></p> <p>I can <u>describe</u> the density of H₂O in different stages of the water cycle using <u>comparative and superlative structures</u>, such as <u>dense, denser, and the densest</u> with the support of my <u>Cornell Notes</u>.</p>
	<p><i>Discourse level:</i></p> <p>Lab report, academic presentation, slideshow presentation, narrative essay, biography, autobiography, journal entry</p>		<p><i>Secondary Science [sentence level]</i></p> <p>I can <u>describe</u> density in a <u>science lab report</u> with the support of my <u>Cornell Notes</u> and an <u>outline</u>.</p>

Academic Language Function	Examples of Language	Examples of Supports	Academic Language Objective Examples
<p>Analyze</p> <p>Related functions: calculate, interpret, classify, categorize, classify, predict, deduce, differentiate, examine, discriminate, distinguish, group, illustrate, infer, order, recognize, relate, transform</p>	<p><i>Word level:</i></p> <p>Content vocabulary (“bricks,” or words in bold)</p>	<p>Brace Map</p> <p>Multifl w Map</p> <p>Flow Map</p> <p>Tree Map</p> <p>Circle Map</p> <p>Fishbone</p> <p>Organizers for Main Idea/ Supporting Details</p>	<p><i>Secondary English Language Arts [word level]</i></p> <p>I can <u>analyze</u> the motivations of two or more characters in <i>Of Mice and Men</i> using <u>suffixes that change verbs into nouns</u>, such as <u>-tion (intention, discrimination)</u>, <u>-ment (disagreement)</u>, and <u>-sion (decision, discussion)</u> with the support of <u>word building cards</u>.</p>
	<p><i>Sentence/syntax level:</i></p> <p>Is a part of, is related to, to be, same, different, similarities, differences, the common traits, to, so that, nevertheless, thus, accordingly, if . . . then (conditional connectors), makes, causes, because, creates, results in, due to, on account of, therefore</p>		<p><i>Secondary English Language Arts [sentence level]</i></p> <p>I can <u>analyze</u> the motivations of two or more characters in <i>Of Mice and Men</i> using <u>contrasting words</u>, such as <u>either/or, neither/nor, yet, and however</u>, with the support of a <u>fishbone organizer</u>.</p>
	<p><i>Discourse level:</i></p> <p>Academic essay, speech, academic classroom discussion, written explanation, descriptive essay, science article</p>		<p><i>Secondary English Language Arts [discourse level]</i></p> <p>I can <u>analyze</u> the motivations of two or more characters in <i>Of Mice and Men</i> in a <u>personal letter to a book character</u> with the support of an <u>informal letter format graphic organizer</u>.</p>
<p>Justify</p> <p>Related functions: argue, persuade, discriminate, prove, deduce, document, support, question, validate, verify, debate, construct, persuade</p>	<p><i>Word level:</i></p> <p>Content vocabulary (“bricks,” or words in bold)</p>	<p>Circle Map</p> <p>Tree Map</p> <p>Opposing Forces Chart</p> <p>Prediction Tree</p>	<p><i>Elementary Social Studies [word level]</i></p> <p>I can <u>justify</u> my position on how to create more jobs using <u>stress on the correct syllable in key content vocabulary</u>, such as <u>employment, economy, and benefit</u> , with the support of a <u>key vocabulary word bank with symbols to mark stress</u>.</p>
	<p><i>Sentence/syntax level:</i></p> <p>I think, according to, for example, in fact, most important, if . . . not, if . . . then, I believe, because, since, based upon, one should (must, will), understand, on the contrary, need to, therefore, from my point of view</p>		<p><i>Elementary Social Studies [sentence level]</i></p> <p>I can <u>justify</u> my position on how to create more jobs using <u>opinion statements</u>, such as <u>I think . . . , I believe . . . , and My point of view is that . . .</u> , with the support of an <u>opposing forces chart</u>.</p>
	<p><i>Discourse level:</i></p> <p>Editorials/opinions letters, debates (oral and written), scientific articles and lab reports</p>		<p><i>Elementary Social Studies [discourse level]</i></p> <p>I can <u>justify</u> my position on how to create more jobs in an <u>editorial submission to the local newspaper</u> with the support of a <u>small group</u> and a <u>graphic organizer</u>.</p>

Academic Language Function	Examples of Language	Examples of Supports	Academic Language Objective Examples
<p>Synthesize</p> <p>Related functions: Arrange, categorize, combine, compile, compose, construct, create, deduce, explain, formulate, generalize, generate, integrate, modify, organize, prepare, plan, produce, propose, rearrange, reconstruct, relate, reorganize, revise, summarize</p>	<p><i>Word level:</i></p> <p>Content vocabulary (“bricks,” or words in bold)</p>	<p>Circle Map</p> <p>Webs</p> <p>Thinking Stems</p>	<p><i>Elementary English Language Arts [word level]</i></p> <p>I can <u>synthesize</u> information from a <i>Time for Kids</i> article using <u>academic content vocabulary</u>, such as <u>analysis</u>, <u>study</u>, and <u>overview</u>, with the support of a <u>partner</u> and a <u>highlighted text</u>.</p>
	<p><i>Sentence/syntax level:</i></p> <p>Conjunctions, in other words, that is to say, to put it differently</p>		<p><i>Elementary English Language Arts [sentence level]</i></p> <p>I can <u>synthesize</u> information from a <i>Time for Kids</i> article using <u>connecting phrases</u>, such as <u>in other words</u>, <u>to put it differently</u>, and <u>that is to say</u>, with the support of a <u>bubble map</u>.</p>
	<p><i>Discourse level:</i></p> <p>Scientific article, informative paragraph, biographical essay, structured academic classroom discussion</p>		<p><i>Elementary English Language Arts [discourse level]</i></p> <p>I can <u>synthesize</u> information from a <i>Time for Kids</i> article in a <u>five-sentence paragraph</u> with the support of a <u>graphic organizer</u> and an <u>academic content vocabulary word list</u>.</p>
<p>Evaluate</p> <p>Related functions: Appraise, argue, assess, compare, conclude, consider, contrast, criticize, critique, decide, describe, determine, discriminate, distinguish, grade, judge, justify, recommend, validate, verify, test, support, rate, rank, measure, interpret, relate, identify, explain, indicate, confirm</p>	<p><i>Word level:</i></p> <p>Content vocabulary (“bricks,” or words in bold)</p>	<p>Double Bubble Map</p> <p>Multiflow Map</p> <p>Cause-Effect Chain</p> <p>Opposing Forces Chart</p>	<p><i>Elementary Social Studies [word level]</i></p> <p>I can <u>evaluate</u> why cities are located where they are using the <u>-tion suffix in content vocabulary</u>, such as in <u>position</u>, <u>elevation</u>, and <u>location</u>, with the support of a <u>word part cards</u> and a <u>partner</u>.</p>
	<p><i>Sentence/syntax level:</i></p> <p>I think, according to, for example, in fact, most important, for instance, for example, specifically</p>		<p><i>Elementary Social Studies [sentence level]</i></p> <p>I can <u>evaluate</u> why cities are located where they are using <u>location words (prepositions)</u>, such as <u>next to</u>, <u>near</u>, <u>toward</u>, and <u>to the north/south</u>, with the support of an <u>anchor chart</u> and a <u>map</u>.</p>
	<p><i>Discourse level:</i></p> <p>Descriptive narrative, reports, academic classroom discussions, writing about or discussing philosophical questions</p>		<p><i>Elementary Social Studies [discourse level]</i></p> <p>I can <u>evaluate</u> why cities are located where they are in a <u>structured academic discussion</u> with the support of <u>sentence starters</u> and a <u>partner</u>.</p>
