

## INSTRUCTIONS

This Learning Packet has two parts: (1) text to read and (2) questions to answer.

The text describes a particular sport or physical activity, and relates its history, rules, playing techniques, scoring, notes and news.

The Response Forms (questions and puzzles) check your understanding and appreciation of the sport or physical activity.

## INTRODUCTION

Golf is the most popular and fastest-growing sport in many countries today. People of all ages can (and do) play golf, at many different levels of skill.

Why is golf so popular? It's relaxing, it's good exercise and it's played in pleasant surroundings. It presents challenges, yet isn't too taxing to be played at an amateur level.

Golf is also a great spectator sport. Thousands of viewers watch the sport on television, while thousands more follow their favorite golf pro to tournaments.

## HISTORY OF GOLF

According to legend, a shepherd in Scotland hit a stone with a stick and watched the stone soar in the air. Thus the game of golf was born!

Golf flourished first in Scotland and later in England. The first golf balls used in England around the fifteenth century were called "feathery" because they were made of leather and stuffed with feathers.

The game of golf grew in popularity, especially among the wealthy because it was seen as a game played and controlled by the upper classes. Although many people still con-

sider golf “a rich man’s game,” public courses in contemporary America are open to the population at large.

Golf first became popular in America around 1895, when the first U. S. Open Tournament was held. The first 18-hole golf course opened in Wheaton, Illinois in 1893.

## HOW GOLF IS PLAYED

Golf is played on a golf course. Full-sized courses have 18 holes, while smaller courses have only 9 holes. Golf balls are placed on small wooden or plastic supports called “tees,” which are pressed into the ground on a “teeing ground.” Golf clubs are used to hit the balls off the tees in the direction of the next hole, which is on what is called a “green” or “putting green.” The area between the tee and the green is called the “fairway.” Trees, lakes, streams, sand, and other obstructions may be on either side of the fairway. Sometimes, fairways are shaped like arms that are bent at the elbows.

The object of the game is to hit the golf ball off the tee, up the fairway, to the putting green, and into the hole with the fewest number of strokes possible. Each hole has a designated number of strokes. This designated number of strokes is called “par,” from which we get the popular expression, “par for the course.” Thus, a good player can move the ball from the tee to the hole on a “par 4” hole in four strokes. Par can vary from three to five strokes, depending on the difficulty of the course and the distance of the hole from the tee.

An excellent player may put the ball in the hole with fewer or greater strokes than are assigned as par for a particular hole. When this is done, there is a name for it:

- |               |  |
|---------------|--|
| <b>BIRDIE</b> | Hitting the ball into the hole with one stroke under par.  |
| <b>BOGIE</b>  | Hitting the ball into the hole with one stroke more than par.  |
| <b>EAGLE</b>  | Hitting the ball into the hole with two strokes under par. An Eagle is possible on any hole above par 3. |

## ACE

Hitting the ball into the hole with one stroke. An “ace” is also called a “hole in one.”

According to golfing rules, once the ball is placed on a tee, it cannot be touched by anything other than a golf club until it is taken out of the hole. Most golfers strive to keep the ball on the fairway, the area between the teeing ground and putting green. If a ball is hit badly, it may end up “in the rough,” or the area near the fairway with bushes, trees and tall grass. Balls which are hit inaccurately also may end up in bunkers or sand traps.

## GOLF ETIQUETTE

All sports require that the participant practice sportsmanlike behavior. Part of the goal of sports is learning how to be both a good winner and a good loser. Golf is no exception. Always observe the following six rules of golf etiquette:

1. Don't talk or move around when a player is about to hit the ball. All players should keep their distance from the golfer who is about to hit the ball. She or he should not be distracted by talking or movements by other players.
2. Replace any damage done to the course. If your golf club digs up a chunk of grass (a “divot,” in golfing terminology) on a shot, put the grass back where it came from. Also, rake a sand trap smooth after stepping out of it.
3. When a group of players is particularly slow, the group behind should be allowed to move ahead.
4. Technically, each group should be allowed to finish the hole before the next group starts. No one can tee off when another group is finishing up on the putting green. On holes of great distance, a group may tee off when the party in front of them is still on the fairway, but at a safe distance.
5. Help keep the putting green in immaculate condition. Keep carts and golf cars away from the greens.
6. Learn the proper way to warn other players about an approaching ball. If a player hits a ball too hard, inaccurately or carelessly and it heads for another player, the golfer who hit the ball should yell out “Fore!” to warn others.

# PLAYING TECHNIQUES

## *THE GRIP*

The grip is an important element in golf since the hands are the only parts of the body that touch a golf club. There are three types of grips in golf, as follows:

**The interlocking grip.** This type of grip is good for persons with shorter fingers. The little finger of the right hand locks between the index finger and the middle finger of the left hand. This is an extremely stable grip, and keeps the hands and fingers in the same position throughout the swing.

**The overlapping grip.** In this grip, the little finger of the right hand overlaps the index finger and middle finger of the left hand (the opposite if you are left-handed). This is a stable grip, but not as stable as the interlocking grip.

**The baseball grip.** In this type of grip, all ten fingers are on the club (as one would do in holding a baseball bat), with no interlocking or overlapping. This grip is not as stable as either of the other two grips.

No one type of grip is absolutely superior to the others. Different people have different skeletal lever systems, and different muscular development. Some people like the interlocking grip because of its stability. Others find it too confining and difficult to use. The choice of grip depends on which one best suits the individual golfer.

## *THE GOLF SWING*

In order to hit a golf ball accurately from a specific distance, a player must know the fundamentals of the golf swing. The correct way to swing can be broken down into steps, as follows. However, note that the swing, when performed properly, is one continuous smooth motion:

1. Stand before the ball with the face (flat area) of the golf club head positioned next to the ball. This is called “addressing the ball”. If you are right-handed, your left side will be turned toward the green. The opposite is true if you are left-handed. Keep your eye on the ball as you start your backward swing.
2. Swing the club in an arc backward away from the ball. When the club is

at about waist height, your wrists will remain stable as you grip the club. The shoulder facing the green will come up under the chin and the hips will begin to rotate away from the green. Keep your eye on the ball.

3. When the golf club is brought back as far as it can go in the backswing, your shoulders should be turned about 90 degrees from the direction your toes are pointing. Your hips should be turned about 45 degrees. Don't take your eye off the ball.

4. Start the downward motion of the club with a rotation of your hips toward the direction of the green. Keep your eye on the ball.

5. Follow the hip motion with the arms coming down with the wrists still stable. Do NOT lead the motion with the arms; lead with the hips. Keep your eye on the ball.

6. As the arms straighten, the club face hits the ball. Follow the ball with your eyes.

7. The swing does not stop at this point. The club continues to follow its path in the direction of the green as you finish off the swing. This is called the "follow-through."

8. Make every swing a full swing.

If a golf swing is properly done, it should look and feel smooth, effortless, and powerful, accomplished in a single smooth motion in the backswing, then a single smooth motion through the arc of the forward swing and into the follow-through.

Strength doesn't necessarily mean a great deal in the game of golf. Having strong arms doesn't necessarily mean that the ball will travel a great distance when you hit it. To get the maximum distance when hitting a golf ball, you must coordinate the movements of your hips, torso, arms and wrists.

Think of your body as a whip, starting in the hips and ending in the head of the golf club. When the face of the club connects with the ball, that point of impact should be the point at which the swing has achieved its fastest motion and greatest energy. That energy is imparted to the ball by the face of the club. The greater the energy, the farther the ball will

go. The smoother and more coordinated the swing, the greater the energy.

## *PUTTING*

Putting is done when the ball is on the green and must now be hit into the hole. The ball may be near to, or far from the hole. Also, the green may slope off at an angle, may have rough and smooth grassy sections, and may be wet or dry. Each of these conditions will affect accurate putting.

When spectators are watching golfers on the putting green, they often think “It looks so easy!” However, this isn’t usually the case. Putting is often the critical factor in a golf game. Many a golfer has lost a tournament because his or her putting wasn’t precise enough.

Good putting requires a delicate touch and good judgment. There are many different styles of putting, and many different conditions on the putting green. But three things are necessary:

Keep your eye on the ball.

Keep your head absolutely still.

Move the putter along the line of the putt as if it were going through the ball.

## **EQUIPMENT AND CLOTHING**

Different golf clubs are designed to perform different tasks. Drivers are designed to hit the ball long distances, and are usually used on the teeing ground. Drivers are made of wood or composition material. “Irons” (which are made of plated brass and/or steel, not iron) are usually used on the fairway. Putters are used on the green.

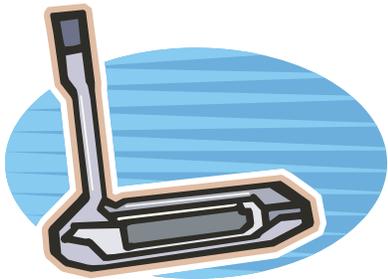

Golf clubs have varying degrees of angles on their faces. This angle is called “loft.” The angle is measured from the vertical. Hence:

A **wedge** has the greatest loft and a very severe angle, and is used to scoop a ball out of the sand.

A **nine iron** has a large loft or angle, so it can propel a ball upwards in an arc over obstacles.

The **five iron** has less loft and a shallower angle, and is commonly used to hit the ball on down the fairway toward the green.

A **driver** has little angle and loft, and is used to drive the ball from the tee down the fairway.

A **putter** has almost no angle, since it is used for short, precise shots on the green.

A professional golfer usually owns four different wood clubs and ten different iron clubs. An amateur, however, can usually play with about half that number. A good amateur bag could carry the following clubs: Driver, Five iron, Seven iron and Putter

Golf balls weigh slightly over an ounce in weight. They are made of rubber and silicone, and other synthetic materials. The surface of golf balls are covered with tiny round indentations, spaced at regular intervals. These indentations are aerodynamic, and give the ball accuracy in flight—a far cry from the old feather-stuffed balls first used in the game!

## GOLF NOTES AND NEWS

One doesn't ordinarily associate golf with strong emotional experiences. Instead, golfers seem cool and detached as they walk the links. But while golf does not present the spectacle offered by football or basketball, the drama is there. 1997 offered some of the most dramatic moments ever in golf, especially with the electrifying appearance of Tiger Woods. He started the 1997 professional tour with a victory at the Mercedes Championships in January, and then went on to set the course on fire in Augusta, Georgia at The Masters. In 1998 and 1999, however, he faded a bit. But not for long.

One of golf's great accomplishments was Tiger Woods' win at Augusta on April 8, 2001. This gave Tiger four majors in a row which included the U.S. Open, the British Open, and the PGA. Woods is the only man to hold all four of golf's major trophies at the same time. In 2002, Tiger won the Masters again, making this his third Augusta win (1997, 2001, 2002). He is only the third golfer to win consecutive Masters. Woods also had significant wins in 2005 and 2006 at the British Open and captured the Medinah in 2006.

With the 2006 Medinah win, Woods became the first person to win the PGA Championship twice at the same venue while also surpassing Walter Hagen on the all-time major

championship win list, just six shy of the legendary Jack Nicklaus.

“It’s still a long way away,” said Woods, referring to reaching Nicklaus. “It’s not something I could get next year. You know, as I said, it took Jack over 20 years to get to his. It’s going to take a career and I’ve just got to keep plugging along and keep trying to win these things.”

By mid-year 2007 Tiger added wins at the Buick Invitational, the World Golf Championship and the Wachovia Championship to his long list of victories. By the end of 2007 Tiger led all professional golfers with \$10,867,052 in prize winnings. This helped confirm Tiger’s status as the 2007 PGA “Player of the Year.” Rookie of the year in 2007 went to Brandt Snedeker.

Annika Sorenstam won back-to-back U.S. Women’s Open Championships in 1995 and 1996. It was five years before she won another major championship, the 2001 Nabisco Championship. She successfully defended her title at the 2002 Kraft Nabisco Championship. In 2003, she won two of the four majors; the McDonald’s LPGA Championship presented by AIG and the Weetabix Women’s British Open. In May, 2003, Sorenstam became the first woman to play on the PGA Tour in 58 years. Sorenstam was named LPGA Tour Player of the Year and Top Tour Money Leader in 2004 and 2005. She earned over 15 top 10 finishes and 3 victories in 2006. She also won the U.S. Women’s Open Championship, in 2006.

The major LPGA winners in 2007 were Morgan Pressel (Kraft Nabisco Championship), Suzann Pettersen (LPGA Championship), Cristie Kerr (U.S. Women’s Open) and Lorena Ochoa (Women’s British Open).

For three years, Camilo Villegas managed to make a name for himself without winning.

He was the young Colombian with model good looks and chic clothing, limber enough to strike a pretzel-shaped pose on the green to read putts, earning him the nickname “Spider-Man.” Trouble was, not many of those putts went in.

That changed in August of 2008 at the BMW Championship.

Clinging to a one-shot lead on the back nine at Bellerive, Villegas saved par with a 12-foot putt, followed that with two birdie putts and finished off a 2-under 68 for a wire-to-wire victory and his first PGA Tour title.

Jean-Francois Lucquin beat Rory McIlroy with a birdie-3 on the second playoff hole in August of 2008 to win the Omega European Masters.

The 19-year-old McIlroy held a four-stroke lead going into the final round, but bogeyed two of the first three holes and then missed a five-foot putt for victory on the 18th to settle for a 71. McIlroy missed a one-foot putt and made bogey on the second playoff hole before Lucquin holed a 12-footer for his first European Tour win in his 175th attempt.

Name: \_\_\_\_\_ Date: \_\_\_\_\_

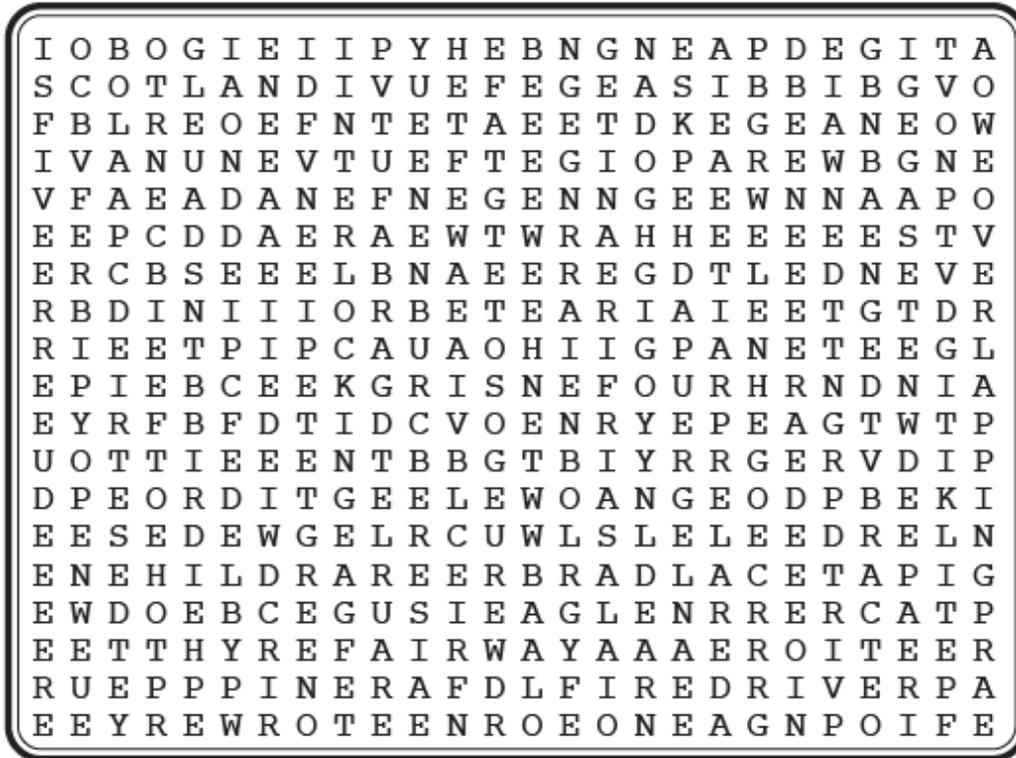

**Across:**

1. This grip reminds one of holding a bat
4. The number of clubs in a good amateur golf bag
7. Usual number of holes on golf courses
8. The area between the tee and the green
13. Type of grip where fingers are entwined
15. Hitting a ball into a hole two strokes under par
16. Name of gadget on which the golf ball is placed
18. The club with the greatest loft

**Down:**

1. Hitting a ball into a hole one stroke under par
2. Rated strokes for a particular hole
3. The first US \_\_\_\_\_ tournament was held in 1895
5. Type of grip where fingers of one hand are on top of fingers of the other
6. Hitting a ball into a hole one stroke over par
8. A fifteenth century English name for golf balls
9. This club is used on the green
10. Wood used to hit the ball off the tee
11. Where legend says golf was invented
12. The highest par rating on a hole
14. The hole is located here
17. Hitting a ball into a hole with one stroke

Name: \_\_\_\_\_ Date: \_\_\_\_\_

Use the clues below to discover words in the above puzzle. Circle the words.

1. Hitting a ball into a hole two strokes under par
2. Rated strokes for a particular hole
3. Hitting a ball into a hole one stroke over par
4. This grip reminds one of holding a bat
5. A fifteenth century English name for golf balls
6. Hitting a ball into a hole one stroke under par
7. The hole is located here
8. Usual number of holes on golf courses
9. Hitting a ball into a hole with one stroke
10. Wood used to hit the ball off the tee
11. Where legend says golf was invented
12. Type of grip where fingers are entwined
13. This club is used on the green
