Samuel de Champlain fonde la ville de Québec en 1608. La ville de Québec est la plus ancienne ville francophone en Amérique du Nord.

Both Marianne and François speak French, but you'll notice that their French sounds different because they come from different areas of the Francophone world. The French that they speak is the same language, but you will notice a different accent, just as you would when listening to people speaking English who come from different places such as Alabama, New York or London.

Perspective culturelle: Justin Trudeau, un Canadien à plusieurs identités

Connexions

How do politicians in your community share their identities?

Justin Trudeau is the 23rd Prime Minister of Canada. However, before becoming a politician, he was a math and French teacher. He is bilingual, having grown up in a family that brought together the English and French influences throughout Canada. In his politics, he is a strong advocate of education and programs for young people, as well as the environment. The son of a former Prime Minister, Trudeau now has three children of his own.

Réflexion

Research the life and career of Justin Trudeau. How does he self-identify, both personally and professionally? Which perspectives does a bilingual politician bring to your community?

Can you figure out when to use **es** and **suis**? elle est *she is*

il est *he is*

To make the above forms negative, surround the verb form with the words *ne... pas*:

je ne suis pas

tu n'es pas

il/elle n'est pas

Étape 2: Demandez et répondez

Working with a **partenaire**, ask questions like the ones in the model until your **partenaire** answers affirmatively based on his or her list from **Étape 1**. Then switch roles. **Note:** Read the **Détail grammatical** concerning the verb **être** to help you use complete sentences in your answer.

Modèle

Tu es sportif/sportive?

Est-ce que tu es chanteur/chanteuse?

**Mon progrès communicatif**

I can ask and answer simple questions about identity.

r-r-r-r-r

Pronunciation

Le son /r/

The French **r** is pronounced in the throat, as opposed to the English **r**, which is pronounced in the front of the mouth. You can practice making this sound by gargling with water. Notice that you can gargle while making a sound with your voice and also by simply blowing air through your throat. This is true with the French **r** as well, depending on the word. Your mouth must be open to pronounce the French **r**. The exact shape of your mouth depends upon which sounds are before or after the **r** in the particular word. Look at the following words and listen to François pronounce them. Also notice the shape of his mouth while he says them.

répétez

généreux

français

bonjour

croissant

créateur

courageuse

Now practice saying these words yourself, trying to imitate how François, the native speaker, pronounces them. Bravo!

Mon progrès communicatif

Pronunciation

Le son /e/

One of the most common sounds that you will encounter in French is the sound equivalent to the English combination "ay," as in the words "day" and "say," but stopping the word before arriving at the point where the "y" is pronounced, making the sound shorter. Let's take a look at a variety of French words with combination of letters and accents that produce that sound.

The first example is the letter e with the accent aigu = é. Words that feature this accented "e" include the following:

café	fiancée
matinée	élève
enchanted	

A second example of French spelling that produces that same sound are words that end in the letters -ez. There are a number of classroom commands with which you are familiar that end in this combination that include the following:

écoutez	répétez
parlez	regardez

You will encounter verbs that have the -ez ending throughout your studies of French.

There is a third group of French words that also produce the same sound. The majority of French verbs end in the letters *er* in their most basic form, which is called the infinitive. Here is a small list of some of those verbs:

parler = to speak

voyager = to travel

danser = to dance

discuter = to discuss

téléphoner = to phone

We don't want to forget some of the months that we have learned that would include the following:

janvier

février

Words that end in -et also have that similar sound:

ballet

juillet

et

Je me présente

You have decided to compete for a state-wide scholarship to help fund the cost of going to a Francophone country as part of an exchange program. In order to introduce yourself to the scholarship committee (made up of French teachers), you need to prepare a video presentation that you can use to introduce yourself.

Étape 1: Écrivez

You have learned that previous applicants have used many tools for visual support in their videos and you need to choose which you will use for your presentation. The options are as follows:

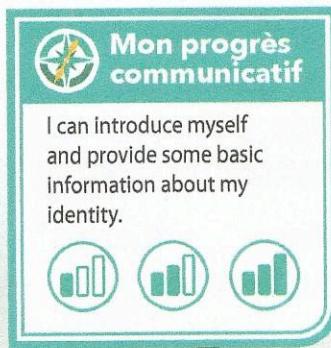

- multimedia presentation
- poster
- photo book or collage

In your presentation tool, be sure to incorporate pictures, drawings or symbols to illustrate and support written statements about yourself including:

- your name
- age
- birthday
- where you are from
- likes
- dislikes

Étape 2: Parlez

Now that you have the support of a presentation tool, you are ready to make a video to introduce yourself to the committee. The narration of your video presentation should consist of a minimum of eight sentences incorporating all the information in your presentation tool. Questions en conversation

Étape 1: Écoutez

Listen to Marianne and her friend ask each other some of the questions above. See if you can figure out what the questions and answers are in their conversation.

Étape 2: Parlez

Now it's your turn. Find a **partenaire** and have a similar conversation by asking and answering basic questions. Record a video of your conversation in your Explorer course.

Détail grammatical**L'ordre des mots dans les questions**

As you continue to study French, you will see questions that might look different from the ones you've used so far. There is a lot of flexibility in French to switch the word order in questions. However, you will generally see all the same important question words, so pay attention to the question word (who, what, when, where, why, how, how much, how many, which) and the action.

Look at these other questions and see if you can figure out what they are asking:

- **Qu'aimes-tu étudier?**
- Tu as **quel** âge?
- Tu t'appelles **comment**?
- **Quand** est-ce que tu voyages, en général?
- Tu viens d'**où**?
- **Pourquoi** est-ce que tu aimes la musique classique?
- Tu préfères **qui** comme chanteur?

Activité 23 **Informations pratiques**

It is a new school year and your French teacher asks you to answer the following questions to learn more about you. Write your answers using complete sentences.

Détail grammatical**Est-ce que**

Earlier, you learned that when **est-ce que** is placed at the beginning of a question, it indicates that it is a yes or no question. When **est-ce que** is placed after a question word, it should be followed by the subject and then the verb.

Par exemple:

Pourquoi est-ce que tu aimes chanter?

Quand est-ce que tu aimes jouer au basket?

Activité 24**Quelles langues est-ce que tu parles?****Étape 1: Demandez et répondez**

Is your class multilingual? Learning a language takes practice and sometimes classes to help you understand how to read, write, speak, and understand.

Ask your classmates questions to find out what languages they speak. Follow the model and include appropriate expressions such as **c'est intéressant!**, **c'est super!**, **moi aussi!**, or **moi non plus!** to acknowledge your classmates' answer.

Zoom culture

Perspective culturelle: L'identité linguistique du Québec

Connexions

What do you already know about the history of Quebec? Do you think that French was always the official language of Quebec?

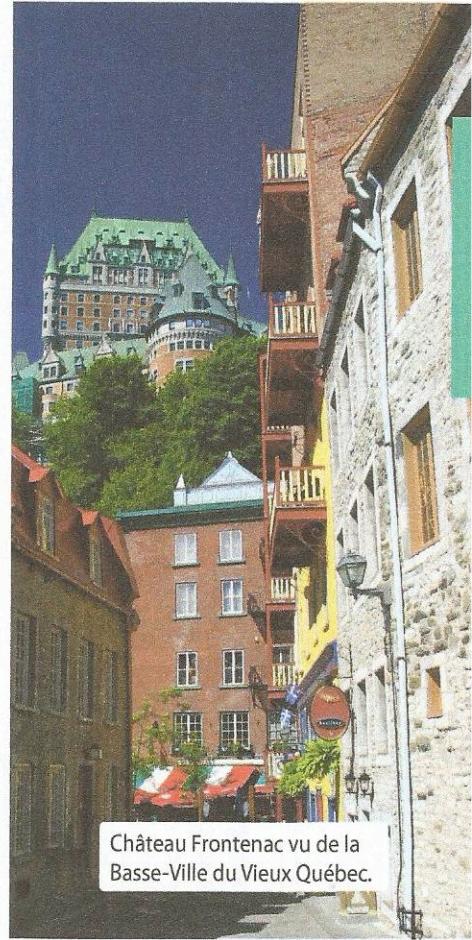

In 1608 when Samuel de Champlain founded the city of Quebec, the explorers brought not only supplies, but their language and culture to the New World. The language, however, began to evolve as explorers used maritime expressions in daily life (*embarquer/débarquer de la voiture*). The French colonists also interacted with native populations, including the Algonquin and Mohawk peoples, who introduced new words like *caribou* (deer; elk) and *toboggan* (sled, luge).

When France ceded the vast majority of its North American territory to Great Britain in 1763, there was a major linguistic and cultural transition as now these people were no longer French, but British. There were decades of discrimination and fighting to maintain the French language and culture. Finally, in 1977, *La Charte de la langue française* was passed into law, which decreed French as Quebec's only official language. This law, commonly known as Bill 101, gives Francophones the right to communicate in French at work.

Réflexion

What role did the French people and language play in the origins of the United States? Why is French an important language of communication in North America and across the world?

Your school television station that broadcasts school news and events each morning is producing a feature on one of the visiting Francophone students. You will work in pairs and record an interview where both the host student and the visiting student (*your partenaire* and you) will ask each other questions. Use the list below as a guide to the nature of the questions that should be asked and answered. Each of you will ask three of the six questions and respond to the questions from *your partenaire*. Work together to ensure that together you ask all six questions.

Synthèse de grammaire

1. Expressing who I am: *le verbe être et les adjectifs*

In this unit, you have seen three forms of the verb ***être*** (to be); all the present tense forms of this verb are given below:

	singular one person		plural two or more persons	
the speaker him or herself	je	suis	nous	sommes
the person spoken to	tu (<i>informal</i>)	es	vous (<i>formal or informal</i>)	êtes
	vous (<i>formal</i>)*	êtes		
the person or people spoken about	il	est	ils	sont
	elle	est	elles	sont

*The versatile subject pronoun ***vous*** may refer to either one person or any number of people since it can be found in both the singular and plural columns in the chart above. ***Vous***, when referring to a singular person, has a formal tone as opposed to the word ***tu***, which is used to reference someone informally, like a brother, sister or good friend. Use ***vous*** to refer to a teacher or an adult neighbor. For future reference, when you encounter a verb conjugation chart like the one above, ***vous*** will be located only on the plural side of those charts, no matter if it would be plural or singular, formal or informal.

The verb ***être*** can be used with adjectives to describe a person's identity:

— **Tristan est sérieux.**

Tristan is serious.

— **Carole est sérieuse.**

Carole is serious.

2. Expressing preferences: *j'aime/tu aimes*

In French, you can ask about a friend's likes and dislikes by using ***Est-ce que tu aimes* ____?**, with the infinitive form of a verb (**-er, -ir, -re**) in the blank. To answer the question, use ***J'aime* ____**.

To express what you do not like, use ***Je n'aime pas* ____**.

—***Est-ce que tu aimes étudier?***

Do you like to study?

—***Oui, j'aime étudier, mais je n'aime pas écrire.***

Yes, I like to study, but I do not like to write.

For many verbs in French, the form used for ***je*** ends in **-e** and the form used for ***tu*** ends in **-es**. You will learn other verbs that will have a different pattern.

3. Asking and answering questions: *questions et réponses*

Questions with a yes/no answer in French can be created in different ways:

- You can use the regular word order of a sentence and simply make it a question by using rising intonation, with the tone of your voice sounding higher at the end.

Tu parles français?

- Also, you can attach the question marker ***est-ce que*** to the beginning of a sentence, which signals the listener that what is to follow is a question.

Est-ce que tu parles français?

- Another way to make a question is to switch the order of the subject and the verb in the sentence. A regular sentence in French has the subject first and then the verb. Using the verb first and the subject second (with a dash in between) will make the sentence into a question.

Parles-tu français?

Information questions (in contrast to yes/no questions) require a question word or phrase (***qui, que, où, quand, pourquoi, comment, quel(le)(s)***). Sometimes you will see ***est-ce que*** after a question word as in the following examples:

Pourquoi est-ce que tu aimes chanter?

Quand est-ce que tu aimes jouer au basket?
