GPA	2 students not sure about their GPA	7 students not sure (1 wrote a response that was probably not valid)	10 students not sure about their GPA

In preparation for the “**Young Voices of College and Career Readiness Program**” video resources... Students completed demographic sheets that required them to list current colleges and careers of interest. They were also asked to list their most recent number of credits earned and GPA.

“**Young Voices of College and Career Readiness Program**”: Based data from students, young professionals (primarily children and/or relatives of Alumni) will be engaged in sharing short video clips about:

- preparing for college
- their experiences while attending college
- current “on the job” responsibilities

There will be Q & A opportunities via live streaming as well as school visits when schedules permit.
