Reports to:	Executive Director, Information Technology

Position Summary:

Support and maintain the SAP ECC 6.0 business system of the district for the following modules: HR/PY/BN/FI/CO/FM/MM. Responsibilities include technical and functional design/implementation of business solutions, working with end users and subject matter experts in preparation of technical specifications, development/testing of program code, and providing documentation to subject matter experts.

Essential Functions:

- Monitor and support all production SAP system applications and interfaces
- Perform daily analysis/programming/troubleshooting/monitoring/production support, working closely with subject matter experts/technical support team/off-site BASIS support team/help desk/trainers
- Assist in configuration of SAP modules in support of changing business requirements
- Develop/maintain ABAP reports and interfaces/custom tables
- Assist subject matter experts in running of reports/interfaces/batch sessions
- Work with subject matter experts to provide data/reports to internal/external auditors
- Interface between off-site SAP BASIS support and on-site network staff when issues arise
- Work with BASIS and SLPS Tech Support on network/hardware issues, such as FTP and printing issues
- Utilize OSS to research issues and work with BASIS support team on application of notes to resolve issues
- Support users in testing of HR LCP's and patches applied by BASIS
- Work with 3rd party vendors on interfaces with SAP to develop interfaces required to integrate master and transaction data to/from SAP and external software applications
- Exporting of existing SAP data related to HR, Payroll, and Finance
- Configuring, modifying, and manipulating scripts for importing
- Importing into new system
- Working with consultants on script changes
- Reporting needs and issues directly with consultants
- Working hand in hand with SLPS employees on their needs between both systems
- Maintaining the historical data in its current format
- Proposing best solution for historical inclusion in new system
- Perform other related duties as assigned

Knowledge, Skills, and Abilities:

- Knowledge and experience with client server computer environment, Oracle database management system, and local and wide area networks
- Knowledge and understanding of SAP security and segregation of duties protocols
- Knowledge and experience with disaster recovery in a virtualized environment
