Test-Taking Strategies

By Elise Boggess

Hello, Kennard! Today I will show you 10 ways to study well for an online test.

1. Get Informed
- Get to know your teacher's approach to the test.
- Know the topics and chapters in your textbook that the test will cover.

2. Divide Big Concepts Into Smaller Sections
- If you are studying one big topic, break it down and do different parts at a time.
- If you assume you already know it, you might get more questions.

3. Play games
- Use flashcards, quizzes, or other tools to help you remember important information.
- You can learn and master an impressive talent, and show it off when this is all over.

4. Build with LEGOs
- Try using flashlights, making s'mores, and replicate an experience!
- Take some photos- maybe even try editing!

5. Draw with crayons, colored pencils, and/or paint
- The Tiger Times is hosting a drawing contest. Artwork must be your own, but you can use any mediums you like.
- Hey there! May the best builder win! Send your drawings to Laurie Batres by May 3, 2020. Winning drawings will appear in the May issue of The Tiger Times. Be creative and have fun!

6. Take Some Breaks
- Don't study for long periods of time without taking breaks.
- You can play games, build with LEGOs, or draw with crayons.

7. Divide Big Concepts Into Smaller Sections
- If you are studying one big topic, break it down and do different parts at a time.
- If you assume you already know it, you might get more questions.

8. Read Books
- This is a fun site to go to, and it gives satisfying results.
- This is a fun site to go to, and it gives satisfying results.
- I've helped my mom make violet lemonade from violets in our yard.
- It is a free drawing tool that you can use when you are trapped inside.

9. Try Some DIY Projects
- Make your own science lab in your own room. You can learn and master an impressive talent, and show it off when this is all over.
- Try using flashlights, making s'mores, and replicate an experience!
- Take some photos- maybe even try editing!

10. Learn How to Forage
- In times like these when it's hard to get to the grocery store, why not find food in your neighborhood?
- Foraging means finding edible food in the wild, and it can help you learn the characteristics of certain plants. While foraging, be sure to look for leaves, flowers, and fruits that can help you learn the characteristics of certain plants.
- There are many recipes for these plants. Here's one for chickweed pesto! You can find chickweed in the wild,

Kennard Students Qualify for State Math Competition

By Richard Heidenry

Fourteen Kennard students took the MCTM district math competition online in April, and five of them qualified for the state competition. The students who participated are: Sky Jacobson, Caris Ong, Mihir Busani, Richard Heidenry, Dylan Miller, Isabella Patino, Annabelle Rehbein, Henry Schrock, and Sky Schrock.

How to Build a Simple LEGO Spaceship

By Lila Brady

Step 1: Gather the Materials
- You will need a LEGO spaceship set, LEGO bricks, and any other materials you may need.

Step 2: Build the Base
- Use LEGO bricks to build the base of your spaceship.

Step 3: Add the Wings
- Attach the wings to the base using LEGO bricks.

Step 4: Put together the first step and the wings
- Make sure the wings are secure and attach them to the base.

Step 5: Add the Final Pieces
- Use LEGO bricks to add any final pieces to your spaceship.

Step 6: Show Off Your Creation
- Share your LEGO spaceship with friends and family.

Book Review: Harry Potter and the Half-Blood Prince

By Elise Boggess

In the end Hogwarts experiences a great loss. For Harry, Ron, and Hermione, this year at Hogwarts is very intense and they have to make a big decision.
