Kennard Students Qualify for National Mathematics Contest

Many of the Kennard students who participated in the local math competition have qualified for the national competition. It is not uncommon for local students to participate in national contests, but it is very rare for students to qualify for the national level. Our students shined on the national stage and brought glory to the community. Congratulations to our students who made it to the national level.

Nut-Free Brownies

Recipe from Myrecipes.com

Makes about 16 brownies

Ingredients:
- 1 cup of sugar
- 1/4 cup of melted butter
- 2/3 cup unsweetened cocoa
- 1 teaspoon of vanilla extract
- 1 cup all-purpose flour
- 1 tablespoon powdered sugar
- cooking spray

Steps:
1. Preheat oven to 325 degrees.
2. Spread batter into an 8-inch square baking pan coated with cooking spray.
3. Bake at 325° for 23 minutes or until brownies spring back when touched lightly in center. Cool in pan on a wire rack.

How to Perfect Poetry

1) Do you ever get assigned a poetry assignment? Do you ever come home with a C or D? Let me tell you that if you don’t do it right, that teacher is going to hate it. It is important to have a rough draft. Once you have that, you can give a number of revisions, which can be made into a final draft. If the teacher doesn’t like it after revising, then you should stop and try again. It is better than to have a bad poem. Remember to not write the first time you see the teacher but to write the second time. If you write the first time, you might not see the teacher. If you don’t write the first time, then you will see the teacher. The second time, you will see the teacher. It is always better to revise. If you revise and edit, then it might get better. NEVER think it’s perfect the first time unless read over and approved by your teacher.

2) When writing poetry, ideas in poetry form if you write them down on paper before you start. It will be easier to write if you don’t have to think of ideas while writing. It is also a good idea to brainstorm your ideas. This is crucial in poetry, as it will give you a good start and help you think of more ideas. By brainstorming, you can get your ideas out before you start writing.

3) Research forms of poetry and look at other poems. Who knows? You may find a new type of poetry that you can write. There are many forms of poetry, including haiku, limericks, epitaphs, sonnets, and of course free form.

4) Sound devices like repetition, alliteration, hyperbole, and idioms. Sound devices like repetition, alliteration, hyperbole, and idioms can make your writing stand out. By using these devices, you can make your writing more interesting and memorable.

5) Onomatopoeia (I know, it’s a mouthful), and rhyming can make your writing stand out. By using these devices, you can make your writing more interesting and memorable.

LEGO Build-Off Winner

Book Review: Percy Jackson and the Lightning Thief

By Ruby Walker

Percy Jackson is a tenth-grader living in the Bronx. He’s never made the best grade, but he’s going to go to the prom. Unfortunately, as the book begins, he finds out that he’s a son of Poseidon, the god of the sea. He also finds out that a master lightning bolt has been stolen and Zeus thinks that Percy is the thief. Percy is shocked, but he knows that he has to try to find the bolt before it's too late. He joins up with his friend Annabeth, who is the daughter of Athena, and Grover, who is a satyr. Together, they go on a quest to find the master lightning bolt and return it to Zeus.

Art Contest

Here is a showcase of our winners. Thank you to all of our students who submitted artwork for The Tiger Times Art Contest! Congratulations and good luck! Both Sky and Mihir qualified for the national competition. Sky Jacobson placed 3rd in 4th grade, and Mihir Busani placed 4th in 5th grade. Kennard placed 4th in school standings.

How to Build a LEGO Flying Ship Stand

Materials-(Try to make the rods clear to make it look like the ship/plane is flying!)

Step 1- Place the 2x2 plated studs in the spots in the middle of the 4x4 and the end of the 6x2. This will act as the base connected to the ship/plane.

Step 2- Connect the 4x4 and the 6x2 using the 2x4 beam.

Step 3- Use the connector to connect the two separate rods.

Step 4- Add the hinge piece with the studs so you can attach this to the underside of your ship/plane.

Step 5- Anchor it to the underside of your ship/plane.
