Agenda

I do:

- Questions about the current project?

We do:

- Review the new project based on the work of Kara Walker.
- Go over the different topics from the Brainstorming session from yesterday.
- Talk about what supplies we would need to use while working on this assignment.
- If you did not do the EXIT Ticket from yesterday, you have lost points. **If you put IDK, you lost points!! Please keep in mind that is NOT an ANSWER!**

You do:

- Go through the Brainstorming session from yesterday and talk about what topics will be used and how they will be created.
- Decides which topic you think would best work for you and start coming up with a plan in silhouette form to execute your images. How would you/what would you use? What are types of things you could use?
- When you have decided what you are doing, you will need to create a rough draft and then begin creating your image.
