Learners Today, Leaders Tomorrow!

Aviation Test Prep 1 - Junior & Senior Class

Aviation Building E001 - Period 1

COURSE SYLLABUS

2021-2022

INSTRUCTOR: Andrew Craig
E-Mail: andrew.craig@slps.org
Office: 314-345-5670

PLANNING PERIOD: 3rd & 4th

COURSE FRAMEWORK:

The course is designed for Aviation Test Preparation and Career Readiness. This course is not part of the approved FAA curriculum and allows students the flexibility to use the time for FAA make up hours as well as time towards preparation for the FAA oral and practical exams and written test. Students will be required to take an FAA qualifying exam (practice exam) in order to satisfactorily complete the course. This course also allows time for industry and college related activities throughout the school year.

Federal Aviation Administration (FAA) School Certification: Gateway STEM High School is a certified Aviation Maintenance Technician School in accordance with Title 14 of the Code of Federal Regulations 14 CFR, Part 147.

Aircraft Maintenance Technician (AMT), also known as an Aircraft Mechanic, refers to a licensed qualification for carrying out aircraft maintenance. Aircraft Maintenance Technicians (AMTs) inspect and perform or supervise maintenance, preventive maintenance, and alteration of aircraft and aircraft systems. The rules for persons who hold an AMT (Mechanic) certificate issued by the Federal Aviation Administration, both for receiving certification and for certificate-holders, are detailed in Subpart D of Part 65

of the Federal Aviation Regulations (FARs). Visit the Federal Aviation Administration website for specific program certification requirements - www.faa.gov.

Gateway STEM High School Certification Offerings: Airframe – certification required when working on aircraft structures, systems and components.

LEARNING OUTCOMES:

Once a student passes all FAA required courses and license examinations they will receive their FAA Airframe certificate.

COURSE OUTLINE:

First Semester

- Sheet Metal and Non-Metallic Structures
- Wood Structures
- Aircraft Covering
- Aircraft Finishes
- Welding
- Aircraft Fuel Systems

Second Semester

- Fire Protection Systems
- Hydraulic and Pneumatic Power Systems
- Assembly and Rigging
- Cabin Atmosphere Control Systems
- Ice and Rain Control Systems
- Aircraft Instrument Systems
- Position and Warning Systems

REQUIRED MATERIALS:

- Textbook: FAA-H-8083-30 Aviation Maintenance Technician Handbook – General (free download)
- Textbook: FAA-H-8083-31 Aviation Maintenance Technician Handbook – Airframe (free download)
- Pen or pencil
- Notebook
- Calculator

CLASSROOM EXPECTATIONS/POLICIES:

Appropriate classroom conduct at the high school level includes being on time and prepared for class. It includes behaving respectfully towards other students and instructors at all times. Disrespectful behaviors are beneath the standards of high school level students and may result in your being excused from this class.

Cell phones and electronic devices must be turned off for the duration of the class period. No phone calls, text messages, or other uses of electronic devices will be tolerated.

GRADING POLICY/SCALE:

Assignments	Descriptions	Value
Lecture Grade	Average of lecture test, quizzes, and homework assignments	= 50%
Lab Grade	Average of all projects, quizzes, and homework assignments	= 50%
		TOTAL = 100%

Semester Grade Policy:

Grading Policy: Students will follow the grading scale issued by the district which is as follows:

<u>Grade</u>	<u>Grading Scale</u>
A	100 – 90
B	89 – 80
C	79 – 70
D	69 – 60
F	59 and below

Parents may have internet access to their student's grades and assignments, upon Administrative approval at <https://sis.slps.org/SLPS/Default.aspx>

GRADE COMPUTATION

A student's final grade in each course in the curriculum is a combination of his/her lecture grade (50%) and laboratory grade (50%). A minimum final grade of "C", equivalent to a numeric grade of 70%, is required for successful completion of all courses. All laboratory projects must be successfully completed before a passing grade of "A", "B" or "C" may be given for a course.

ATTENDANCE

Students are expected to be in class and lab on time. Absences are counted in 1 hour blocks and are a matter of record and stored in the Gateway's computerized Student Information System (SIS).

ACADEMIC INTEGRITY/ PLAGIARISM:

Plagiarism is taking words or ideas that are not your own and presenting them as though they were. Plagiarism is a serious violation of school rules and will result in a zero on the assignment with no opportunity to make up that assignment. Incidents of plagiarism will also be referred to school administration and a call home.

MISCELLANEOUS COURSE INFORMATION:

Safety: Safety is of the utmost importance. Standard eye protection, not sun glasses, and closed toe shoes are required to be worn while in the labs. Remember safety first.
